**TECHNICAL FEATURES**

- Colourshade Z25 is a three bar knitted, lockstitch Z pattern, incorporating one monofilament and two type yarns for dimensional stability, tear and fray resistance.
- The Z pattern gives excellent weft and warp stability, due to throw of the weft yarns across the knitting needles during fabrication of the fabric.
- The Z pattern design achieves high density coverage with the weft yarns, giving up to 96% UV block out and exceptional water run off properties.
- The Z25 fabric is heat set using a stentering process, giving additional dimensional stability and strength as a result of shrinking and equalizing the yarns lengths and knots in a three bar lockstitch pattern.
- The stentering of the Z25 fabric assists in eliminating sagging and looseness in the fabric after installation.
